French Door Cut-Out Template

Cut here for placement.

Place edge against
baseplate of handle.

1

Align/Tape Here

Align/Tape Here

2

Align this line with center of baseplate or centerline between handle and deadbolt.

Cut here for placement.

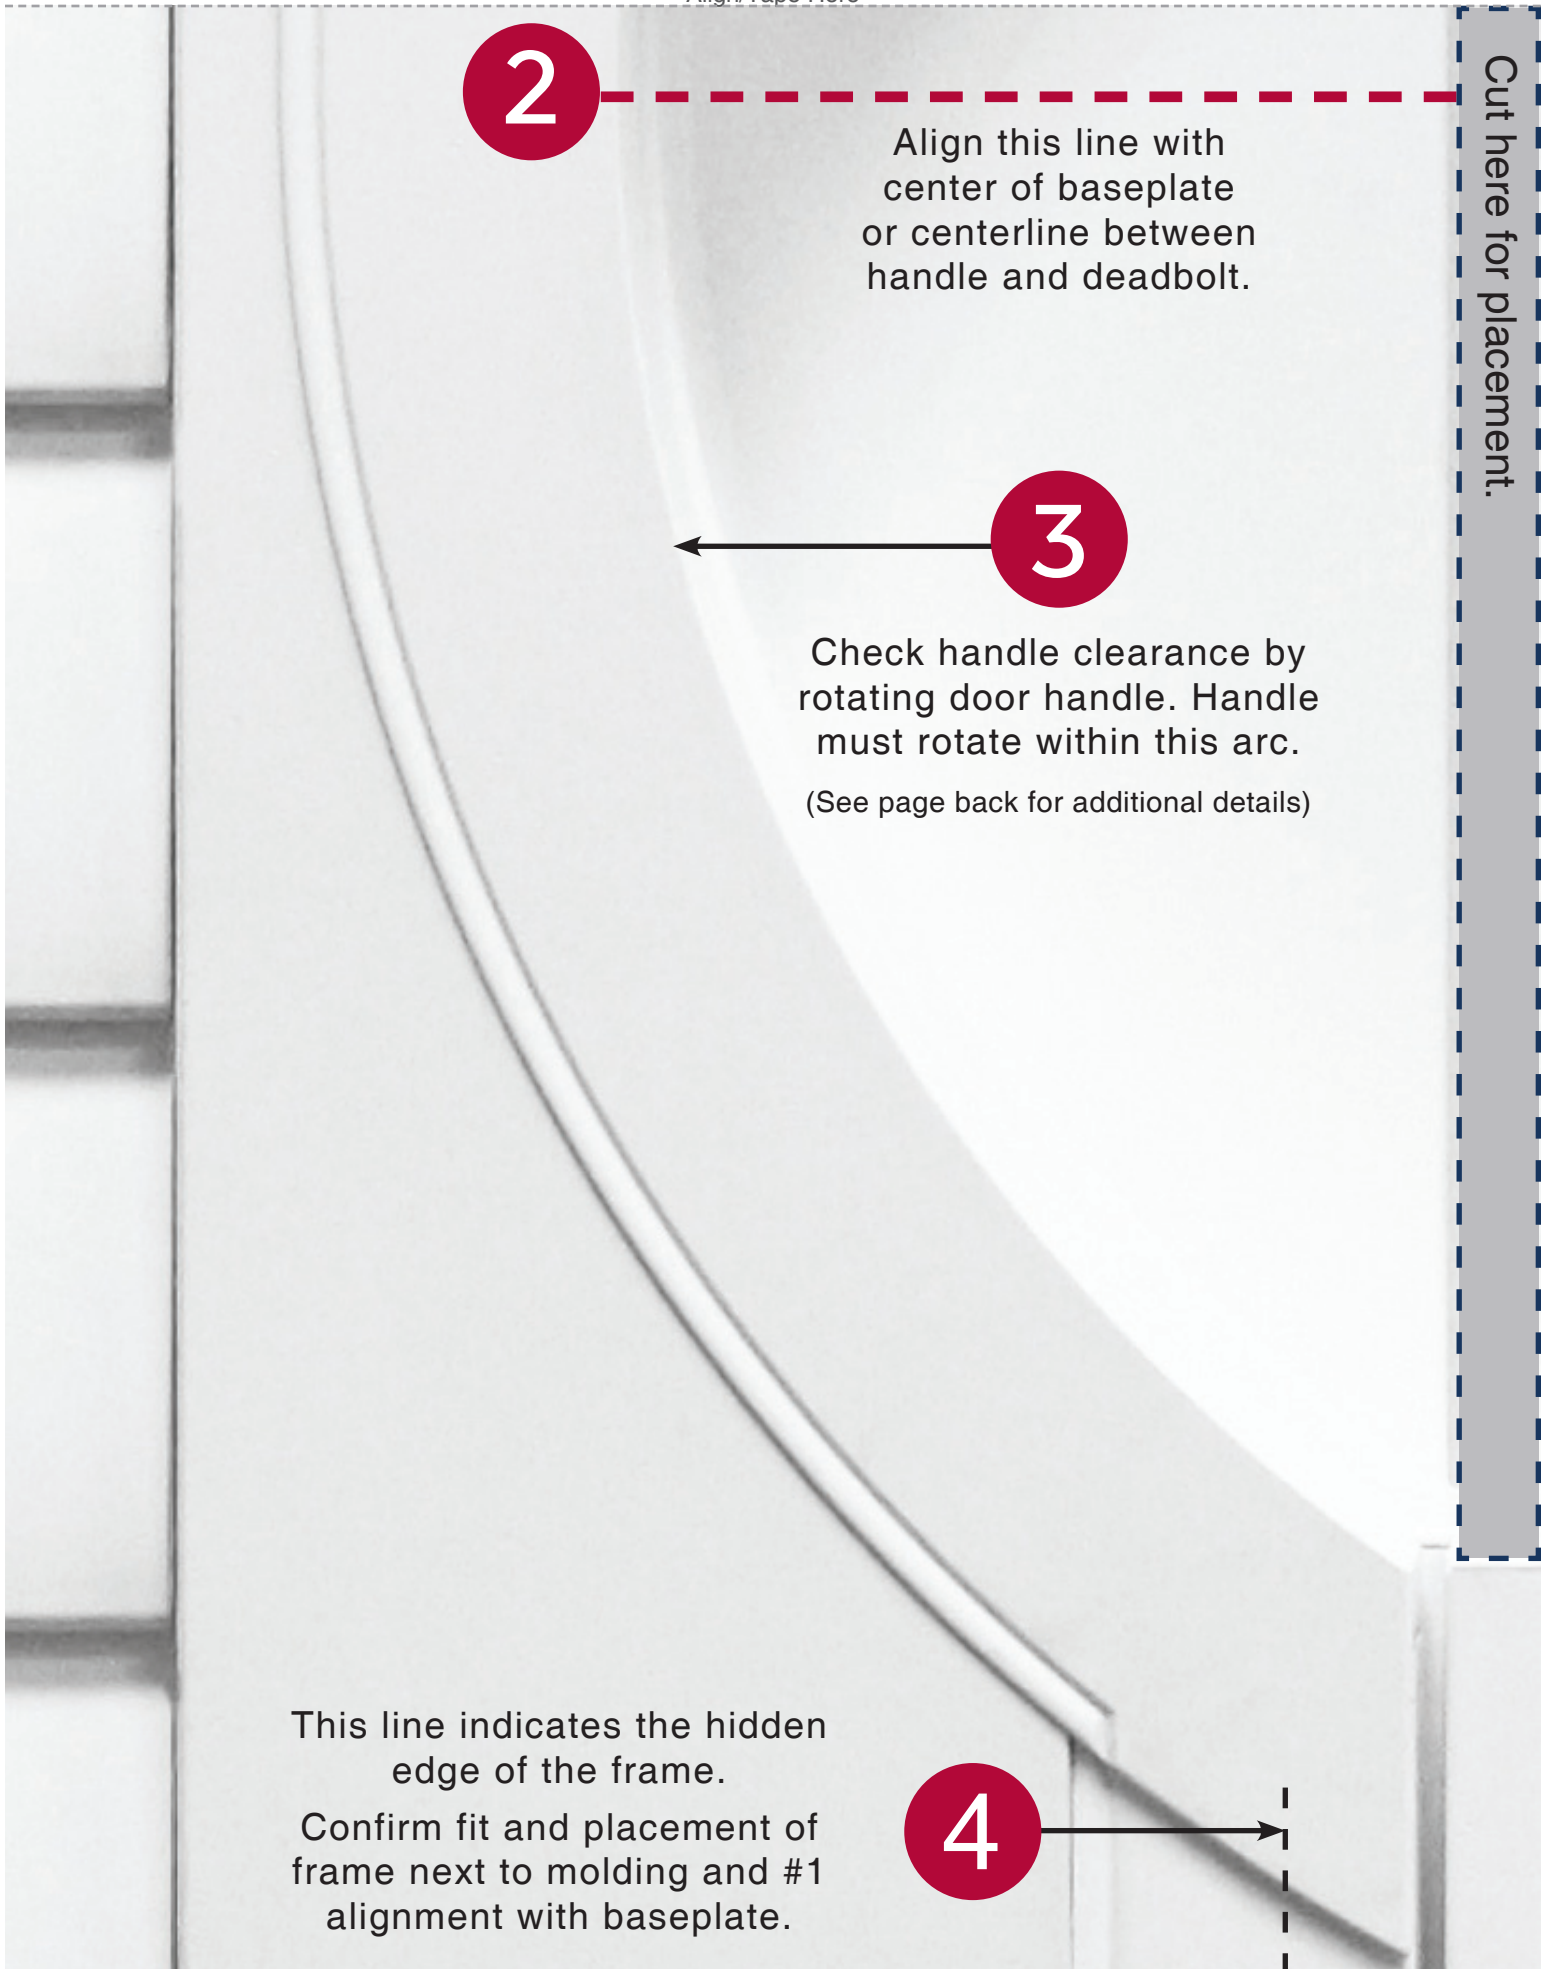

3

Check handle clearance by rotating door handle. Handle must rotate within this arc.
(See page back for additional details)

This line indicates the hidden edge of the frame.

Confirm fit and placement of frame next to molding and #1 alignment with baseplate.
